

Garrett Metal Detectors

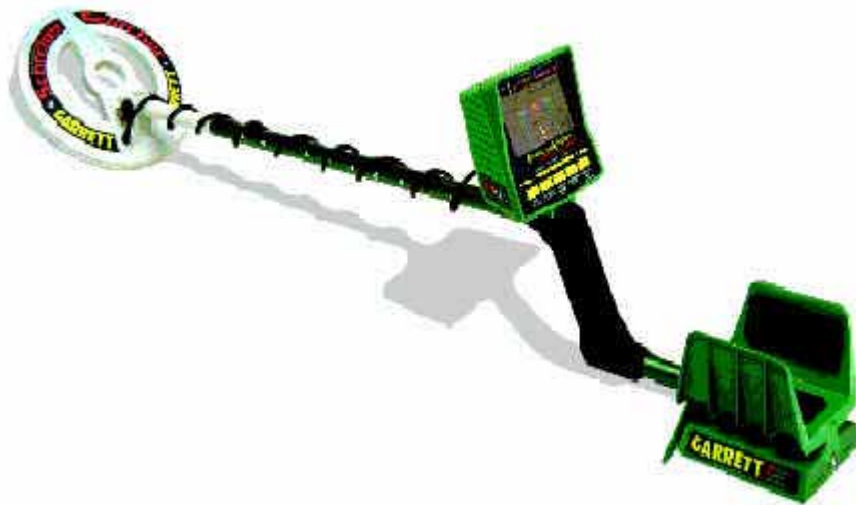

Professional Detectors

New! The new 12 1/2" (25 cm) - coil for GTI series.

This coil is able to measure the size and depth of metal objects. We have checked it and have seen a very sensitiv and deep going coil.

GTI 1500 / 2500

New! - 5 yeary warranty for GTI 2500

Garrett's top-of-the-line GTI 2500 incorporates more than a quarter century's worth of innovative metal detection technology. Backed by a powerful onboard DSP chip, the GTI 2500's unique benefits can't be beat. From the graphc identification of targets to unsurpassed depth capabilities and hunting versatility, the GTI 2500 does it ALL.

Garrett's Imaging with TreasureVision - (GTI 1500 - GTI 2500) provides true depth/size grid with GTA conductivity and notch discrimination.

The unique TreasureVision screen confirms the target's identity by graphically revealing is TRUE size and TRUE depth - in this case a D-sized target (i. e. a 12-ounce aluminium drink can) at eight inches. This patented target feedback system truly is in a class by itself. Once you experience TreasureVision, you'll never hunt with anything else.
